

# Battery Passport for Resilient Supply Chain and Implementation of Circular Economy (BASE)

From February 2027, all industrial batteries over 2kWhr and all EV batteries in the EU market must have battery passports. (EC 2023/1542)

## Project Information

## Use Cases

### Marine

All-electric tugboat production by Navtek

### Automotive

E-bus EV platform production by Mercedes-Benz

Frugal EV platform production by FORD Motors

### Second-life Battery

Stationary electric energy storage production

## Consortium Members

This project has received funding from the Horizon Europe Framework Programme (HORIZON) Research and Innovation Actions under grant agreement No 101157200.
